第一篇：数字时代的信息真伪

Directions: For this part, you are allowed 30 minutes to write an essay. You should start your essay with a brief description of the picture or statement: **“In the digital age, a wealth of information creates a poverty of attention and a pressing need for truth verification.”** You should write at least 150 words but no more than 200 words. Both sides of the issue or your own experience can be cited to support your view.

用模板写的高分范文（容易背）：

As the continuous advancement of society and the internet, it is of great necessity for citizens to verify information carefully in the digital age. The following strategies provide a comprehensive framework for addressing this challenge.

First and foremost, there is no doubt that information verification can effectively prevent the spread of rumors. According to recent social surveys, an overwhelming majority of well-educated professionals have admitted that they regularly dedicate a significant portion of their energy to cross-checking facts before sharing them. Furthermore, it is obvious that critical thinking plays a vital role in our daily communication. Where there is a habit of truth-seeking, there is a trustworthy online environment. Last but not least, no one can deny that distinguishing truth from falsehood requires constant practice. The more effort we make to filter data, the safer our digital world will become.

In conclusion, information verification is of paramount importance for everyone. If we spare no efforts to cultivate our media literacy and double-check facts, the future of our cyberspace will be both hopeful and rosy.

随着社会和互联网的发展，对于公民来说在数字时代仔细验证信息是十分必要的。以下策略为解决这一挑战提供了全面框架。

首先，毫无疑问的是信息验证能有效阻止谣言的传播。根据近期的社会调查，绝大多数受过良好教育的专业人士都承认，他们定期投入大量精力在分享信息前核对事实。其次，很明显的是批判性思维在我们的日常交流中起着至关重要的作用。只要有寻找真相的习惯，就有值得信赖的网络环境。最后但是同样重要的是，没有人可以否认分辨真伪需要不断的实践。我们越努力筛选数据，我们的数字世界就越安全。

总之，信息验证对每个人都至关重要。如果我们不遗余力地培养媒介素养并复核事实，那么我们网络空间的未来空间将会是充满希望和美好的。

第一篇：数字时代的信息真伪 高水平同学看：非模板范文

The famous statement, "In the digital age, a wealth of information creates a poverty of attention and a pressing need for truth verification," profoundly reflects our current reality. In an era where we are bombarded with an unprecedented deluge of data, the internet acts not only as a gateway to knowledge but also as a breeding ground for rumors, fake news, and deepfakes. Consequently, the ability to verify information has become an essential literacy for modern citizens.

To begin with, unverified information can lead to severe real-world consequences, such as triggering public panic or distorting financial markets. Moreover, the algorithms of social media often create "echo chambers," reinforcing biased narratives. Therefore, individuals must cultivate a critical mindset, cross-checking facts with authoritative sources before sharing them.

However, the responsibility should not rest solely on individuals. Technology companies must deploy advanced algorithms to flag dubious content, and governments need to establish strict legal frameworks. In conclusion, navigating the digital age requires a collective effort. By enhancing our verification skills, we can cultivate a healthier, more rational online environment.

那句名言“在数字时代，信息的丰富带来了注意力的贫困，以及对真相验证的迫切需求”，深刻地反映了我们当前的现实。在这个我们每天都轰炸在空前的数据洪流中的时代，互联网不仅是获取知识的门户，也成了谣言、虚假新闻和深度伪造的温床。因此，验证信息的能力已成为现代公民必备的素养。

首先，未经证实的信息可能会导致严重的现实后果，例如引发公众恐慌或扰乱金融市场。此外，社交媒体的算法往往会制造“回音室”，加剧有偏见的叙事。因此，个人必须培养批判性思维，在分享信息之前与权威来源进行核对。

然而，责任不应完全由个人承担。科技公司必须部署先进的算法来标记可疑内容，政府也需要建立严格的法律框架。总之，在数字时代破浪前行需要各方共同努力。通过提高我们的验证能力，我们可以培育一个更健康、更理性的网络环境。

第二篇：消费主义与理性消费（引语评论型）

Directions: For this part, you are allowed 30 minutes to write an essay. You should start your essay with a brief comment on the saying: "True financial freedom among the youth does not lie in unlimited spending, but in rational consumption and self-discipline." You should write at least 150 words but no more than 200 words. You can comment on the trend of shifting from consumerism to healthy financial habits.

用模板写的高分范文（容易背）：

True financial freedom among the youth does not lie in unlimited spending, but in rational consumption and self-discipline."In the contemporary world, rational consumption has become increasingly important. It is of great necessity for youngsters to avoid the traps of consumerism and manage money wisely. Reasons and concrete evidence to support my view point are as follows.

First and foremost, there is no doubt that healthy spending habits can largely reduce financial anxiety. Ample statistics indicate that a large number of successful financial experts have attributed their achievements to the fact that they consistently spend most of their time planning their budgets and making rational investments. Furthermore, it is obvious that minimalism brings real happiness to our inner world. Where there is rational financial management, there is long-term personal freedom. Last but not least, no one can deny that impulsive buying leads to severe debts. The more wisely we control our desires, the more secure our future lives will become.

In conclusion, rational consumption is the key to a stable life for youth. If we spare no efforts to resist consumerism and practice self-discipline, the future of the younger generation will be both hopeful and rosy.

在当今世界，理性消费变得愈发重要。对于年轻人来说，避免消费主义的陷阱并明智理财是十分必要的。支持我这一观点的理由和具体证据如下。

首先，毫无疑问的是健康的消费习惯可以在很大程度上减轻财务焦虑。充足的统计数据表明，大量成功的金融专家将他们的成就归功于这样一个事实：他们始终把大部分时间花在规划预算和进行理性投资上。其次，很明显的是极简主义能给我们的内心世界带来真正的快乐。只要有理性的财务管理，就有长期的个人自由。最后但是同样重要的是，没有人可以否认冲动消费会导致严重的债务。我们越明智地控制欲望，我们未来的生活就会越有保障。

总之，理性消费是年轻人稳定生活的关键。如果我们不遗余力地抵制消费主义并践行自律，那么年轻一代的未来将会是充满希望和美好的。

第 2 篇：消费主义与理性消费 高水平同学看：非模板范文

The saying, "True financial freedom among the youth does not lie in unlimited spending, but in rational consumption and self-discipline," highlights a significant shift in contemporary youth culture. Driven by sophisticated marketing and social media displays, young people were once primary targets for the traps of consumerism. However, a growing number of them are now embracing a more practical lifestyle and healthy financial habits.

Several factors contribute to this positive transformation. For one thing, economic uncertainties have made young people more aware of the importance of financial security, prompting them to save for the future rather than spending beyond their means. For another, the rise of minimalism has encouraged youth to focus on the actual utility of products rather than the social status associated with luxury brands.

This trend towards rational consumption is highly beneficial. It not only reduces financial anxiety among the youth but also fosters a sustainable society. To sustain this trend, universities should offer more financial literacy courses, guiding young people to build a balanced relationship with money.

“年轻人的真正财务自由不在于无限的消费，而在于理性的消费和自律”，这句话点明了当代青年文化的一个重大转变。在精妙的营销和社交媒体炫耀的推动下，年轻人曾是消费主义陷阱的主要目标。然而，越来越多的年轻人现在开始拥抱一种更务实的生活方式和健康的理财习惯。

这一积极转变有几个原因。一方面，经济的不确定性让年轻人更加意识到财务安全的重要性，促使他们为未来储蓄，而不是入不敷出。另一方面，极简主义的兴起鼓励年轻人关注产品的实际效用，而不是与奢侈品牌挂钩的社会地位。

这种理性消费的趋势是非常有益的。它不仅减轻了年轻人的财务焦虑，还促进了一个可持续发展的社会。为了保持这一趋势，高校应当开设更多财务素养课程，引导年轻人建立与金钱的平衡关系。

第三篇：AI 时代的学术诚信 (引语评论型)

Directions: For this part, you are allowed 30 minutes to write an essay. You should start your essay with a brief comment on the statement: "While AI can generate answers in seconds, it can never substitute for the academic integrity and rule consciousness that education aims to cultivate." You should write at least 150 words but no more than 200 words.

用模板写的高分范文（容易背）：

As an old saying goes: "Using AI to write essays may save time, but it ruins academic honesty." For us college students, it has an increasingly important significance: we must obey academic rules in the tech era. The following reasons can account for this issue.

First and foremost, there is no doubt that academic integrity is the cornerstone of higher education. Insights from educational studies show that most respected scholars and top students have always insisted on devoting the bulk of their time to doing independent research and deep thinking. Furthermore, it is obvious that shortcuts like AI cheating compromise our genuine growth. Where there is strict compliance with rules, there is true intellectual progress. Last but not least, no one can deny that fairness is vital for every student. The more firmly we resist dishonesty, the better our learning atmosphere will become.

In conclusion, honesty should always be placed above technological shortcuts. If we spare no efforts to uphold academic integrity and use AI responsibly, the future of modern education will be both hopeful and rosy.

正如一句古老的谚语所说：“用 AI 写论文可能会节省时间，但它会破坏学术诚信。”对于我们大学生而言，它的重要性愈发凸显：我们必须在技术时代遵守学术规则。以下这些原因可以解释这一现象。

首先，毫无疑问的是学术诚信是高等教育的基石。教育研究的观点表明，大多数受人尊敬的学者和顶尖学生始终坚持将绝大部分时间投入到独立研究和深度思考中。其次，很明显的是像 AI 作弊这样的捷径会损害我们真正的成长。只要严格遵守规则，就有真正的智力进步。最后但是同样重要的是，没有人可以否认公平对每个学生都至关重要。我们越坚决地抵制不诚信，我们的学习氛围就会越好。

总之，诚信应当永远置于技术捷径之上。如果我们不遗余力地捍卫学

术诚信并负责任地使用 AI，那么现代教育的未来将会是充满希望和美好的。

第 3 篇：AI 时代的学术诚信 高水平同学看：非模板范文

The statement, “Using AI to write essays may save time, but it ruins academic honesty,” catches much attention nowadays. With the rapid development of technology, an increasing number of students are using AI tools like ChatGPT to do their homework or even cheat in exams. In my opinion, we should welcome technology, but we must never lose our academic integrity.

It is true that AI can help us find information quickly and save us a lot of time. However, relying too much on AI brings serious problems. First, it hurts our ability to think independently. Learning is a process of thinking, and if AI does all the work, we can learn nothing. Second, using AI to cheat creates an unfair environment for those students who study hard by themselves. Therefore, academic rules are still very important in the technology era.

In conclusion, AI is a double-edged sword. We should use it as a helpful assistant to improve our efficiency, rather than a tool to cheat. Only by keeping academic honesty in mind can we achieve real progress in our studies.

“用 AI 写论文可能会节省时间，但它会破坏学术诚信”这句话在当下引起了广泛关注。随着技术的飞速发展，越来越多的学生开始使用 ChatGPT 等 AI 工具来做作业甚至在考试中作弊。在我看来，我们应当欢迎技术，但绝不能丢掉学术诚信。

确实，AI 可以帮助我们快速查找信息并节省大量时间。然而，过度依赖 AI 会带来严重的问题。首先，它会损害我们独立思考的能力。学习是一个思考的过程，如果 AI 做了所有的工作，我们将一无所获。其次，利用 AI 作弊对于那些自己努力学习的学生来说是不公平的。因此，在技术时代，学术规则仍然非常重要。

总之，AI 是一把双刃剑。我们应该把它当作提高效率的帮手，而不是作弊的工具。只有把学术诚信牢记在心，我们才能在学业上取得真正的进步。

第四篇：社交平台法律责任 (双面观点型)

Directions: For this part, you are allowed 30 minutes to write an essay on whether social media platforms should be held legally responsible for user content. You should write at least 150 words but no more than 200 words. State your opinion and give reasons to support your view.

用模板写的高分范文（容易背）：

In the contemporary world, the regulation of online media has become increasingly important. When faced with decision of whether platforms should be held responsible for user content, quite a few would deem that platforms are just neutral hosts, but others, in contrast, believe that holding platforms legally accountable is the premier choice and that is also my point. Among countless reasons which support my view, there are three conspicuous aspects as follows.

First and foremost, there is no doubt that platforms have the duty to maintain a healthy online space. From a practical perspective, the majority of insightful tech leaders have publicly pointed out that they routinely allocate a vast amount of resources to monitoring and optimizing communication channels. Furthermore, it is obvious that unregulated content triggers cyberbullying and fake news. Where there is strict legal responsibility for tech giants, there is safety for internet users. Last but not least, no one can deny that profits should come with legal obligations. The more strictly platforms filter toxic speech, the more civilized our society will become.

In conclusion, social media platforms must bear legal liability for user content. If we spare no efforts to enforce relevant laws and urge platforms to self-regulate, the future of our digital community will be both hopeful and rosy.

在当今世界，网络媒体的监管变得愈发重要。当面临平台是否应该对用户内容承担责任的抉择时，不少人会认为平台仅仅是中立的托管者，但与之相反，我认为让平台承担法律责任是首要之选，这也是我的观点。在众多支持我观点的理由中，有以下三个显著方面。

首先，毫无疑问的是平台有责任维护一个健康的网络空间。从现实角度来看，大多数有远见的科技领袖都公开指出，他们常规性地投入大量资源来监控和优化传播渠道。其次，很明显的是不受约束的内容会引发网络暴力和虚假新闻。只要科技巨头承担严格的法律责任，网络用户就有安全保障。最后但是同样重要的是，没有人可以否认利润应当伴随着法律义务。平台越严格地筛选有毒言论，我们的社会就会越文明。

总之，社交媒体平台必须对用户内容承担法律责任。如果我们不遗余力地执行相关法律并督促平台进行自监管，那么我们数字社区的未来将会是充满希望和美好的。

第 4 篇：社交平台法律责任 高水平同学看：非模板范文

With the booming popularity of social networks, a heated debate has arisen over whether social media platforms should be held legally responsible for the content posted by their users. Some argue that platforms are merely neutral hosts, while others believe they must be accountable. In my opinion, platforms should bear legal responsibilities under reasonable frameworks.

On the one hand, holding platforms accountable is vital for combating cyberbullying, hate speech, and fake news. Because platforms profit heavily from user engagement, they possess the technological resources to moderate harmful content. Without legal liability, these tech giants might prioritize profit metrics over public safety, allowing toxic content to spread unchecked.

On the other hand, we must avoid excessive censorship that stifles free expression. If platforms face extreme legal penalties for every single user post, they might overly restrict user speech to protect themselves.

In conclusion, a balanced approach is required. Social media platforms should not be blamed for every user error, but they must be legally required to establish efficient moderation systems and remove illegal content swiftly upon notice.

随着社交网络的蓬勃兴起，关于社交媒体平台是否应该对用户发布的内容承担法律责任，引发了激烈的辩论。有人认为平台仅仅是中立的托管者，而另一些人则认为它们必须承担责任。在我看来，平台应该在合理的框架下承担法律责任。

一方面，让平台承担责任对于打击网络暴力、仇恨言论和虚假新闻至关重要。由于平台从用户参与中获取了巨额利润，它们拥有管理有害内容的运营技术。如果没有法律责任，这些科技巨头可能会将利润指标置于公共安全之上，任由有毒内容肆意传播。

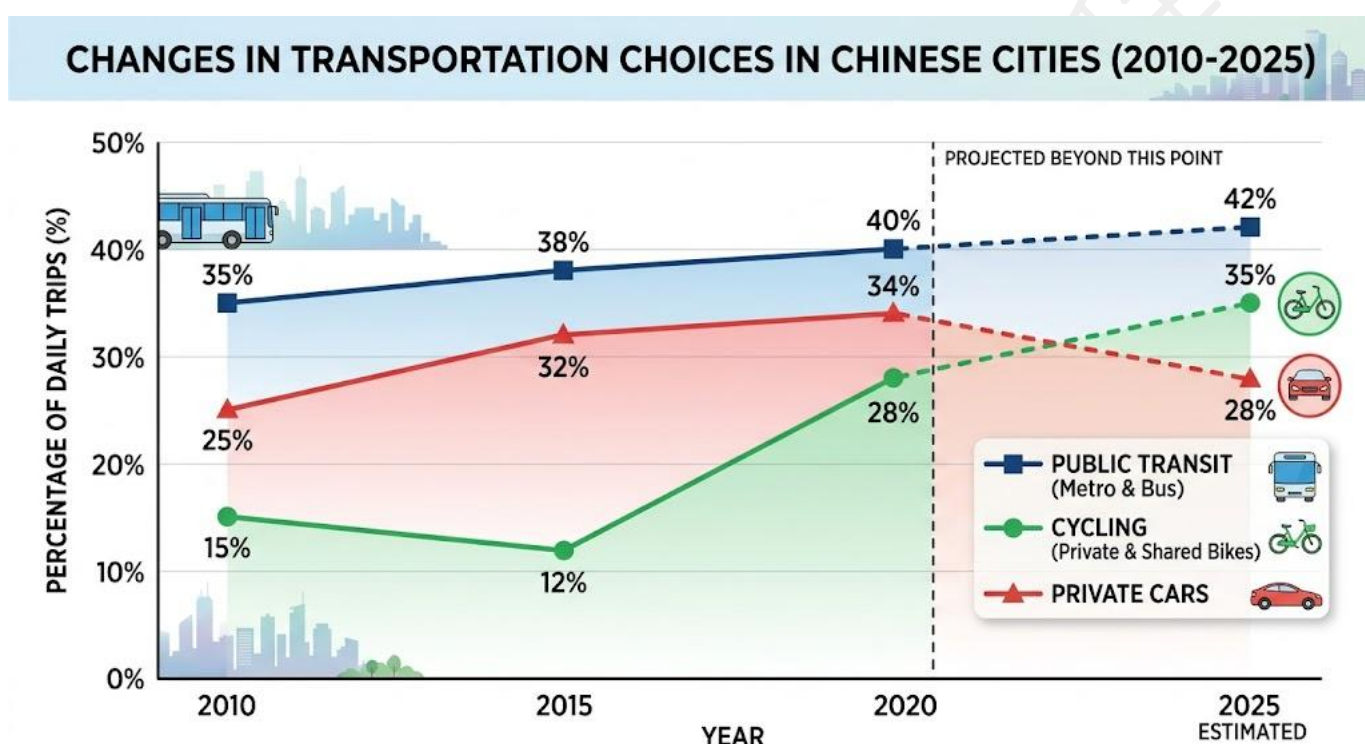

另一方面，我们必须避免扼杀自由表达的过度审查。如果平台因为每一个用户的帖子都面临极端的法律处罚，它们可能会过度限制用户言论以保护自己。

总而言之，需要一种平衡的方法。社交媒体平台不应因用户的每一个错误而受到指责，但必须通过法律要求其建立高效的审核机制，并在收到

通知后迅速删除违法内容。

第五篇：城市出行方式变化 (图表作文型)

Directions: For this part, you are allowed 30 minutes to write an essay based on the chart below about changes in transportation choices in Chinese cities (2010-2025). You should write at least 150 words but no more than 200 words. State the main trend shown in the chart and analyze the reasons.

As is starkly mirrored in the chart that public transit and cycling increase steadily while private cars experience a decline from 2010 to 2025. It is revealed that green travel has become the mainstream choice for urban residents. The following reasons can account for this issue.

First and foremost, there is no doubt that infrastructure construction plays a fundamental role in shifting transportation. Relevant tracking data reveals that a substantial majority of urban commuters have preferred to spend a major part of their travel time using subways or shared bikes to commute. Furthermore, it is obvious that environmental awareness has been deeply rooted in people's hearts. Where there is government support for low-carbon lifestyle, there is a decrease in traffic congestion. Last but not least, no one can deny that green travel benefits both public health and nature. The more residents choose eco-friendly commuting, the cleaner our urban air will become.

In conclusion, the transition to public transit and cycling reflects sustainable development. If we spare no efforts to promote green transportation and improve infrastructure, the future of our green cities will be both hopeful and rosy.

正如图表所清晰展示的那样，从 2010 年到 2025 年，公共交通和骑行稳步增加，而私家车则出现下降。结果表明绿色出行已成为城市居民的主流选择。接下来，我们将探讨造成这一问题的几个原因。

首先，毫无疑问的是基础设施建设在转变出行方式中起着根本性作用。相关追踪数据表明，绝大多数城市通勤者更倾向于将大部分出行时间花在利用地铁或共享单车通勤上。其次，很明显的是环保意识已经深入人心。只要政府支持低碳生活方式，交通拥堵就会减少。最后但是同样重要的是，没有人可以否认绿色出行既有益于公众健康也有益于自然。居民越选择环保通勤，我们的城市空气就会越干净。

总之，向公共交通和骑行的过渡反映了可持续发展。如果我们不遗余力地推广绿色交通并改善基础设施，那么我们绿色城市的未来将会是充满希望和美好的。

第 5 篇：城市出行方式变化 (图表作文型) 高水平同学看：非模板范文

The provided chart illustrates a profound shift in transportation choices among Chinese urban residents from 2010 to 2025. According to the data, while public transit has maintained a steady upward trend, the share of private cars peaked around 2020 and experienced a subsequent decline. Meanwhile, cycling witnessed a dramatic resurgence after 2015, becoming a dominant mode of green travel.

Two main factors contribute to this evolving trend. First and foremost, government policies and heavy investments in urban infrastructure have greatly facilitated green travel. The expansion of subway networks and the boom of shared-bike schemes have made eco-friendly commuting incredibly convenient. Secondly, there is a fundamental transformation in public awareness. Modern urbanites are increasingly conscious of environmental protection and personal health, preferring low-carbon travel to mitigate air pollution and traffic congestion.

In conclusion, the transition from private cars to public transit and cycling reflects a positive shift towards sustainable urban development. As "green travel" becomes a lifestyle choice, Chinese cities are bound to become more livable and eco-friendly.

上述图表展示了 2010 年至 2025 年间中国城市居民出行方式的深刻转变。数据表明，虽然公共交通保持稳步上升趋势，但私家车所占份额在 2020 年左右达到顶峰，随后出现下降。与此同时，骑行在 2015 年后见证了戏剧性的复兴，成为绿色出行的主要模式。

造成这一发展趋势的原因主要有两个。首先，政府政策和对城市基础设施的大力投资极大地促进了绿色出行。地铁网络的扩张和共享单车的兴起使环保通勤变得异常便利。其次，公众意识发生了根本性转变。现代都市人越来越关注环境保护和个人健康，更倾向于选择低碳出行，以缓解空气污染和交通拥堵。

总之，从私家车向公共交通和骑行的过渡反映了向可持续城市发展的积极转变。随着“绿色出行”成为一种生活方式选择，未来的中国城市必然会变得更加宜居和环保。
