For this part, you are allowed 30 minutes to write an essay that begins with the sentence **"Teamwork ability is essential to college students' academic progress and future career development."** You can make comments, cite examples or use your personal experiences to develop your essay. You should write at least 150 words but no more than 200 words.

You should copy the sentence given in quotes at the beginning of your essay.

Teamwork ability is essential to college students' academic progress and future career development. There are some fundamental reasons that can explain this universally acknowledged statement.

First and foremost, it serves as the cornerstone of personal growth, a quality that directly determines the upper limit of our long-term development. For instance, my roommate Li Ming, who always cooperates with his classmates to solve learning problems and participates in group discussions actively, remains calm in the face of academic difficulties and competitive pressures, which helps him constantly overcome these obstacles and make steady progress. By contrast, his classmate who seldom works with others and insists on studying alone often finds himself stuck in a rut, even failing several exams in college.

Furthermore, it has become a necessary demand of modern society, because modern social development requires those with strong teamwork ability. For example, when looking for a decent job in the fierce job market, graduates who can collaborate effectively with colleagues are now highly favored in almost all industries.

To make sure we get these desirable results, some measures involving both educational institutions and individuals are needed. At the institutional level, it is advisable for universities to organize more activities related to teamwork, like team-based case study. On a personal level, every student must cultivate a stronger awareness of this aspect, consciously participating in group projects and cooperative learning activities.

It can be envisioned that a growing number of students will master excellent teamwork ability and achieve both academic success and career advancement in the foreseeable future.

团队合作能力对于大学生的学业进步与未来职业发展至关重要。这一普遍认同的观点背后，蕴含着诸多深层缘由。

首先，团队合作能力是个人成长的基石，这种素养直接决定着我们的长远发展的上限。比如我的室友李明，他总是和同学合作解决学习难题，积极参与小组讨论，面对学业困难与竞争压力始终从容淡定，这也让他不断冲破阻碍、稳步前行。反观他的同学，平日里很少与人合作，坚持独自学习，往往陷入停滞不前的困境，甚至在多门课程考试中失利。

其次，团队合作能力已然成为现代社会的必然要求，社会发展急需具备强大团队合作能力的人才。举例来说，在竞争激烈的求职大潮中，能够与同事高效协作的毕业生，深受各行各业用人单位的青睐。

想要达成这些理想成效，需要学校与学生双方共同发力。高校可以多组织团队合作相关活动，比如团队案例研讨。对于学生而言，大家也要树立正确意识，主动参与小组项目与合作学习

活动。

不难预见，未来会有越来越多的大学生掌握出色的团队合作能力，最终实现学业有成与职业发展的双丰收。

For this part, you are allowed 30 minutes to write an essay that begins with the sentence **"Cultivating an optimistic outlook exerts a positive impact on college students' study and mental health."** You can make comments, cite examples or use your personal experiences to develop your essay. You should write at least 150 words but no more than 200 words.

You should copy the sentence given in quotes at the beginning of your essay.

Cultivating an optimistic outlook exerts a positive impact on college students' study and mental health. From my perspective, I fully support this view, considering its crucial implications for our future.

First and foremost, being optimistic can exert an enormous positive impact on students' academic performance. For instance, my roommate Li Ming, who always keeps an optimistic mind, remains calm in the face of academic difficulties and competitive pressures, which helps him constantly overcome these obstacles and make steady progress. By contrast, his classmate who holds a pessimistic attitude tends to feel upset and give up easily when confronted with some tough questions, even failing several exams in college.

Furthermore, optimism can play an indispensable role in shaping students' mental health. Students often face study pressure and emotional confusion during growth, and an optimistic mindset can help them relieve anxiety and keep a pleasant mood. For example, those who stay optimistic can always keep a healthy mental state and grow up happily.

To make sure we get these desirable results, some measures involving both educational institutions and individuals are needed. At the institutional level, it is advisable for universities to organize more activities related to mental adjustment, such as positive energy sharing meetings and inspirational speeches. On a personal level, every student must cultivate a stronger awareness of this aspect, consciously looking on the bright side of life.

It can be envisioned that a growing number of students will form an optimistic attitude and bravely get through all difficulties in the foreseeable future.

培养乐观心态对大学生的学习与心理健康有着积极影响。在我看来，我十分认同这一观点，这对我们未来发展意义重大。

首先，乐观心态能够极大促进学生的学业发展。比如我的室友李明始终心态乐观，面对学业难题和竞争压力沉着冷静，这让他不断克服阻碍，稳步进步。相反，心态消极的学生遇到难题就容易情绪低落、轻易退缩，甚至多门考试成绩不理想。

此外，乐观心态对养成健康的心理状态十分重要。学生在成长中常会面临学习压力与情绪困扰，乐观的心态可以帮助他们缓解焦虑、保持好心情。心怀乐观的人总能拥有健康的心理状态，快乐成长。

为收获这份益处，学校和个人都应做出努力。高校可多举办心理疏导类活动，例如正能量分享会和励志宣讲活动。个人也要树立意识，凡事多往积极的方向看待。

相信越来越多的学生能够养成乐观心态，勇敢克服未来路上的一切困难。
